Step 1:

Place 2 end racks on the ground facing up and attach 2 spacerbars, 1 Square Base and 1 Square Crown to the racks with nails. This can be done with the provided nails or with a brad nailer.

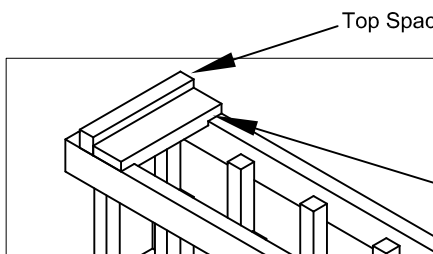

Step 2:

Flip rack over and nail the remaining 4 spacerbars to the racks in the same manner as step 1.

NAIL GUN RECOMMENDED

The rear spacerbars would receive double nailing thru each post.

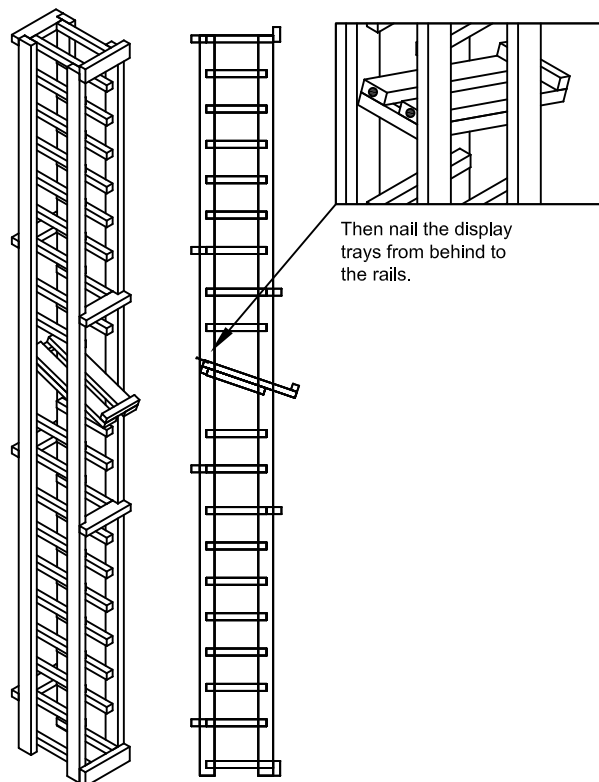

*Attach 1 Back Brace below Top Spacerbar and another on top of Bottom Spacerbar

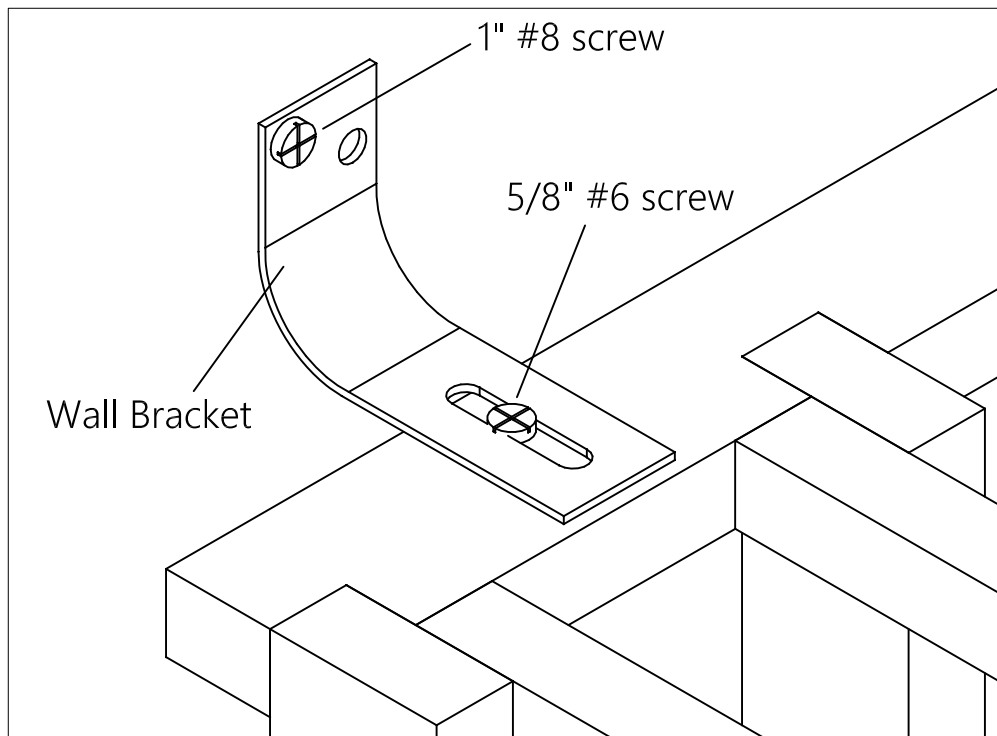

Back Brace

Step 3: (With Display Only)

Insert display tray from the front of the rack. The back of the tray will slide over the back of the angled bottle rails attached to the racks.

Final Step

Secure rack to wall by attaching wall brackets to top back spacer bar.
You will have 1 bracket on the left and 1 on the right.

RACK ASSEMBLY IS COMPLETE.
Always remove bottles before moving racks.
