

Vintner Series

Filler Kit

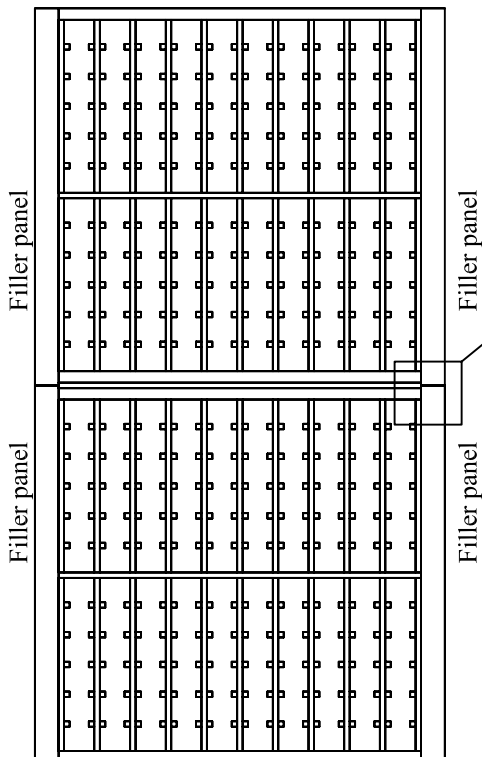

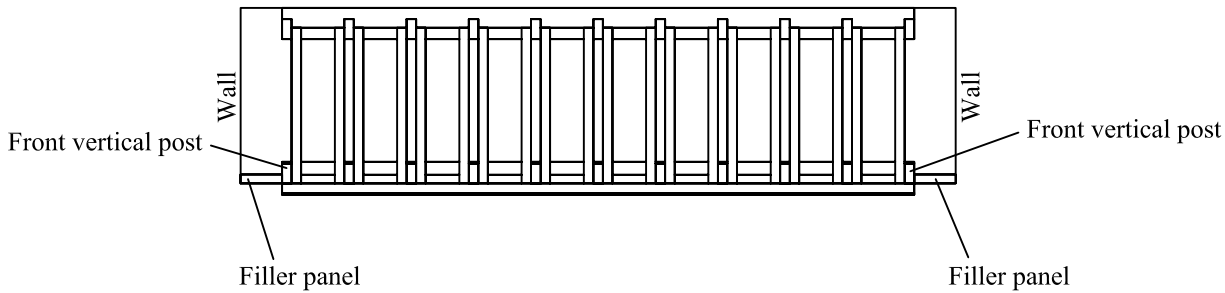

Note: the following installation instructions show two individual bottle kits, the procedure is the same for all stackable kits.

Filler Kit includes:

- | | |
|---|-----------------------|
| 2 | Filler Panels 48"x 6" |
| 1 | Bag of Nails |

Cut filler panel to fit the appropriate height and width needed to fill space.

Nail through front vertical posts (or solid sides) into filler.

Make sure you account for the height of the beam support when cutting the filler panel down to the appropriate height.
