New Three Foot Size Vintner Series Wine Racks

01/15/2009

Cincinnati—January 1, 2009—Due to the overwhelming success of the **Vintner wine racks** series, Wine Cellar Innovations is launching a complementary version of many of the Vintner Series racks. Most of these Three Foot Vintner Series wine racks are 35 15/16" high and can reach almost unlimited heights by stacking the modular wine racks on top of one another and using the specialized moldings developed for the original Vintner Series.

Like the original Vintner Series, the Three Foot Vintner Series wine racks offer a wide variety of racking options, along with the ability to mix and match racking heights and styles. The Three Foot Vintner wine racks can be used with the original 48" Vintner Series and specialized moldings to accommodate ceiling heights of 7' and higher. In addition to unstained redwood and mahogany, the Three Foot Vintner Series is available in four stain options: Light Danish, Classic Mahogany, Dark Walnut, and Midnight Black. These wood types and finishes allow the wine racks to blend well with existing décor, making them a suitable solution for incorporating wine storage into existing living spaces or a dedicated wine cellar.

"By expanding the Vintner line to include these shorter kits, we're giving our customers even more options," says James L. Deckebach, CEO and owner of Wine Cellar Innovations. "Now it's possible to mix and match not only within the three and four foot Vintner lines, but between the two product lines as well."

The Three Foot Vintner Series wine racks are available for preorder now. Expected availability for these wine racks is February 2009. For more information on all Vintner Series wine racks, visit Wine Cellar Innovations' website at www.winecellarinnovations.com or call 800.229.9813.

About Wine Cellar Innovations

Wine Cellar Innovations is the industry leader in the design and production of custom wine racks and wine cellars and has been for over 20 years. The company is located in Cincinnati, Ohio and employs design consultants all over the country to provide customers with local service and exceptional quality. Their **wine racks** have been purchased and installed worldwide.
